

CHOICES: A WORKSHOP WITH HANSPETER AMMANN PRE-WORKSHOP ACTIVITY

In preparation for this workshop I would like you to work on the following activity. The purpose of this task is to focus your attention on the relations between objects, culture, meaning and subjectivity. We will use your responses to think about how we might begin to produce work that will enable you to connect with our friends in Portugal.

Hanspeter Ammann, June 2018

Before the workshop begins you are invited to:

- 1 choose a personal object that has meaning, history or an emotional personal value to you.
- 2 spend some time thinking about the object and explore it visually (through photograph, video or some other medium)
- 2 write a description of the object in not more than 300 words without revealing the object's name.

During the workshop you will:

- 3 read this text out and invite the other participants guess what it is.
- 4 reveal your choice either as a real object or through photographs or a video.
- 5 be prepared to answer some questions by the other participants about why you chose this object and not another one, etc, etc
